Summary

React.js Developer with experience building scalable web applications using React.js, JavaScript, and REST APIs. Skilled in developing reusable UI components, implementing RBAC systems, optimizing performance, and collaborating with cross-functional teams to deliver production-ready applications.

Education

R.C. Patel Institute of Technology , Shirpur

B-Tech in Computer Science

July 2024

CGPA: 7.96

Work Experience

Jr. Frontend Developer, Mplussoft Technologies, Pune

August 2025 – Present

- Design and develop scalable, responsive web applications using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Build reusable UI components and optimize application performance for faster load times.
- Integrate REST APIs and manage application state using modern React practices.
- Collaborate with backend developers, designers, and product teams to deliver high-quality features.

Full Stack Developer Intern, Inditronics pvt ltd, Pune

January 2025 – April 2025

- Developed the Indirex.io IoT analytics platform, supporting 10,000+ devices and reducing data processing latency by 25%.
- Collaborated with cross-functional teams to design scalable front-end and back-end solutions, handling millions of data points daily to ensure seamless performance and reliability.
- Optimized front-end performance by implementing advanced React concepts, including component lifecycle methods, context API, and custom hooks, improving state management and code maintainability.

Technical Skills

Programming Languages: Node.js, Python, SQL

Front-End: ReactJS, Redux, Material UI

Web Development: Javascript, Wordpress, HTML, CSS, Bootstrap

Database and Other Tools: MySQL, MongoDB, Git, GitHub, VS Code, Netlify, Postman.

Familiar With: Machine learning, Natural Language Processing

Non Technical Skills: Communication, Team Work, Problem Solving.

Projects

Sunedge E-commerce & MLM Distribution Platform

(React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, PostgreSQL)

- Implemented RBAC-based access control for a multi-department enterprise platform managing admins, departmental users, and third-party partners.
- Developed the end-to-end frontend of a production-scale MLM and e-commerce platform, using React.js.
- Integrated e-commerce distributor portal and Franchise Panel with role progression and multi-channel order fulfillment and a payment gateway to enable secure online transactions and seamless order processing.
- Created reusable React components and optimized application performance to enhance user experience and maintainability.

Bellaz Vision – Digital Signage CMS Platform

(React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, PostgreSQL)

- Developed the complete frontend for a CMS-based digital signage platform with separate Admin and User panels.
- Built responsive dashboards, integrated REST APIs, and implemented authentication and role-based access for content and user management.
- Integrated a payment gateway for screen purchases and developed interfaces for content upload, media management, and order workflows.
- Created reusable React components and optimized UI performance to deliver a scalable and maintainable

application.

Achievement

Wipro Talent Next Program 2024

Successfully cleared all four training milestones under WIPRO-certified instructors, highlighting strong grasp of core development concepts.
